

## Crane Park – the RAS Call to Arms (legs and the rest of your body bits)

The main task in hand is shrub clearance - before the birds come back. We could start the session with an introduction and 'site tour' and then get on with it!

Q When?

A Saturday the 21st and Saturday the 28th January.

Q What time/s?

A 10.30 - 3.00 (Might be a bit dark after that - could make it 10.00 if people are eager).

Q Where to meet? (Parking?)

A Meet at the Shot Tower. Parking on Ellerman Avenue – see maps.

Q What should people bring in the way of clothing, gloves, equipment?

A Warm, outdoor work clothes, sturdy footwear, gloves (but we have some) and trowels (we have shrub clearance tools).

Q Is drinking water available or should people bring everything they may need,

brunch, lunch, munch, afternoon tea, etc? Lavatory facilities, if any? Shelter if the heavens open?

A Please bring a packed lunch.

There is shelter, lavatories, water to drink and tea making gear in the Shot tower. We can accommodate 12 with comfort. If more can make it we may have to split the group between two rooms and there might be a queue for tea, so it would be worth bringing a thermos with you if you don't want to wait.

Q What else have I forgotten to ask?! Replies on a post card ...

A You can never have too many cameras!
